To Whom it May Concern:

Dr. Moto Ishibe was a student of mine in Graduate Prosthodontics for four years here at the University of Washington. During that time we treated a number of interesting patients together. Dr. Ishibe was an outstanding student with a fine background in many of the disciplines associated with prosthodontics care as well as technically talented in all aspects of clinical prosthodontics care, in fixed, removable and implant prostheses. I recommend him as a fitting leader of continuing education in Prosthodontics.

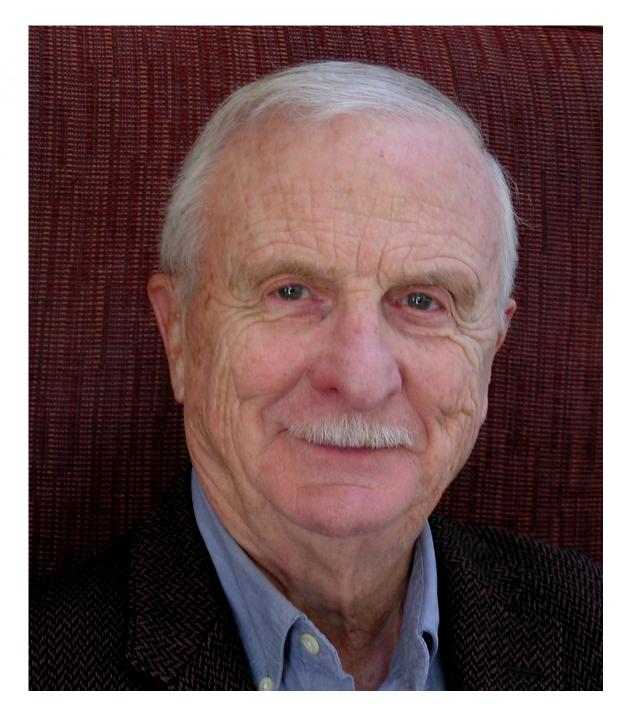

Sincerely,

James S. Brudvik, DDS, F.A.C.P.

Emeritus Professor in Prosthodontics

University of Washington

School of Dentistry

石部先生は4年間、ワシントン大学の補綴専門医課程で私の指導を受けました. その間、私達は一緒になって様々な興味深い治療を行いました. 石部先生はインプラントを含む補綴治療全般において、技術的な才能を持つだけでなく、その治療に関連する多くの分野で優れたバックグラウンドを持つ際立った生徒でした. 私は彼のことを補綴分野の卒後教育においてリーダーとして推薦します.
